Letter of Recommendation

Sandor Gujas built several made to measure shelving units in my house during the week ending 17 August 2007. Not only did they make an excellent job with fine attention to detail and getting them exactly as I wanted them to look but they also worked long hours, starting at 9am and finishing at 9 or 10pm at night with very little rest.

Unusually in my experience of builders from the UK they were not only polite and extremely courteous (stopping me from clearing up when I tried to help with the hoovering up!) but extremely honest also – despite taking twice as long as they had estimated they refused to take additional payment stating that we had agreed on a price and that was that. I was so pleased with the work that I made them take some additional money for the job.

All in all I would not hesitate in recommending Sandor and if you wish to email me or call me then please do so. My email is [drmelwalker@hotmail.com](mailto:drmelwalker@hotmail.com) and my number is below.

Kind Regards

Mel
